Join us for a Tour of Buckhead's State of the Art Meat Fabrication Plant!

Buckhead Beef has one of the finest processing facilities in the United States. Their plant features many of the latest state-of-the-art technologies and innovations. Join us on this tour and experience:

Computer enhanced refrigeration controls with round the clock monitoring systems

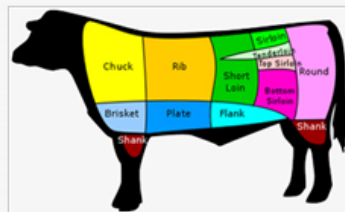

State-of-the-art packaging and portioning systems

Advanced product handling, inventory and information systems

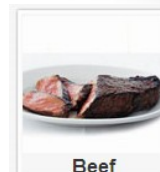

First operational Marel Streamline System in the United States

Precise humidity and temperature controlled dry aging room

Fully integrated HAACP and T.Q.A. programs
USDA rated TQC (Total Quality Control) facility.
Only 8% of the countries plants qualify for this designation

“The Chapter with Attitude”
